PROJECT TITLE	Plugging into the Future: An Exploration of Electricity Consumption Patterns
MAX MARKS	3 MARKS

6.6 – Creativity (Font and Style)

The title "Plugging into the Future: An Exploration of Electricity Consumption Patterns" is designed using the Montserrat Extra Bold font with a size of 14 pt to create a modern and professional appearance. Headings are formatted in Poppins Semi Bold with a font size of 16 pt, while subheadings use 12 pt with bold styling to maintain consistency and improve readability. A color palette consisting of blue, green, and yellow shades is used to represent energy, sustainability, and innovation.

The main content and descriptions are presented using Calibri or Open Sans fonts with a size of 12 pt and regular styling to ensure clarity and ease of reading. Important information and key findings are highlighted using bold text and contrasting colors. Line spacing 1.5pt alignment, and formatting are maintained throughout the reports and dashboards to provide a neat and organized structure.

The dashboards and visualizations follow a clean and futuristic design style with interactive charts, appropriate labels, and clear legends. Colors are carefully chosen to differentiate electricity consumption patterns and trends effectively. Icons related to energy and technology, along with subtle gradients and modern layouts, are incorporated to enhance visual appeal and provide a professional, data-driven presentation that reflects the theme of the project.
